

## ***"How do I transfer the flashcards to my iPhone / iPad / iPod?"***

Please note: These instructions will only tell you how to transfer the Han Trainer Digital Flashcards to your iPod / iPhone / iPad. You need to make sure yourself that an existing synchronization of your photos is not jeopardized by making the suggested changes.

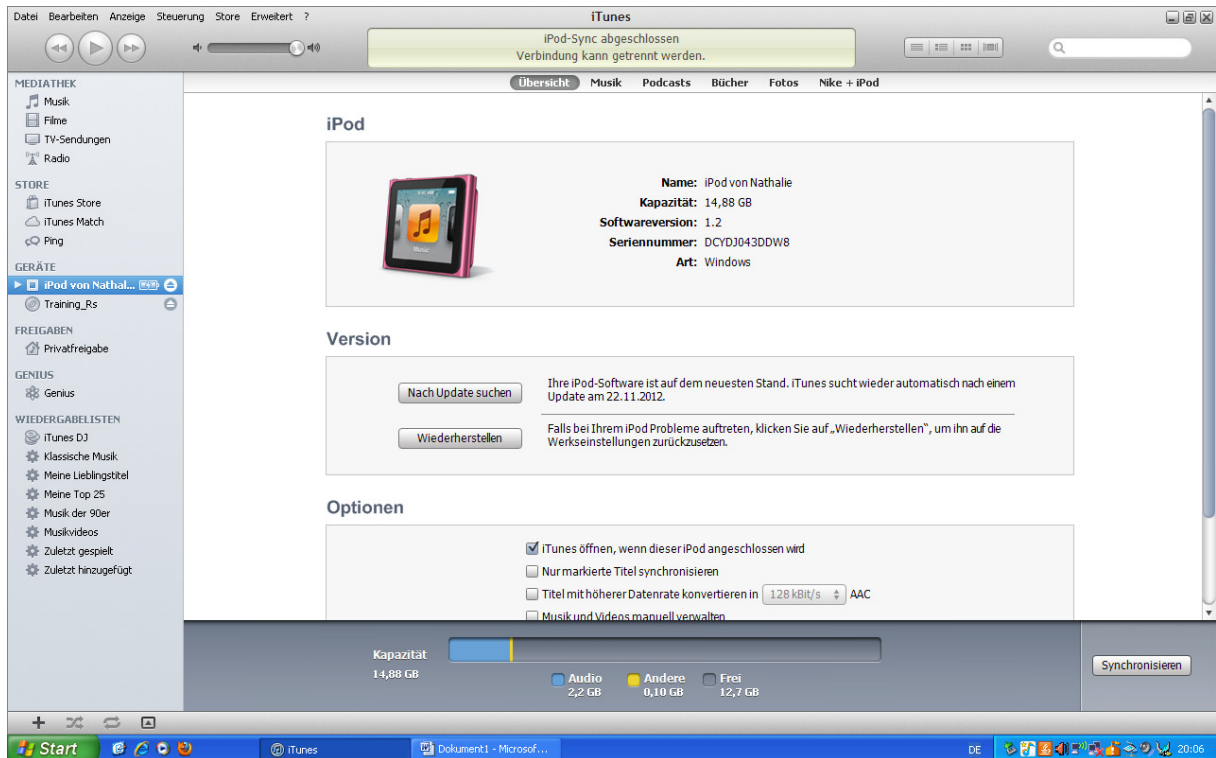

**1. Copy** the Han Trainer Digital Flashcards folder to your computer's hard disc from the CD. Ideally, choose the "My pictures" folder (or an equivalent folder on your Macintosh / Linux system).

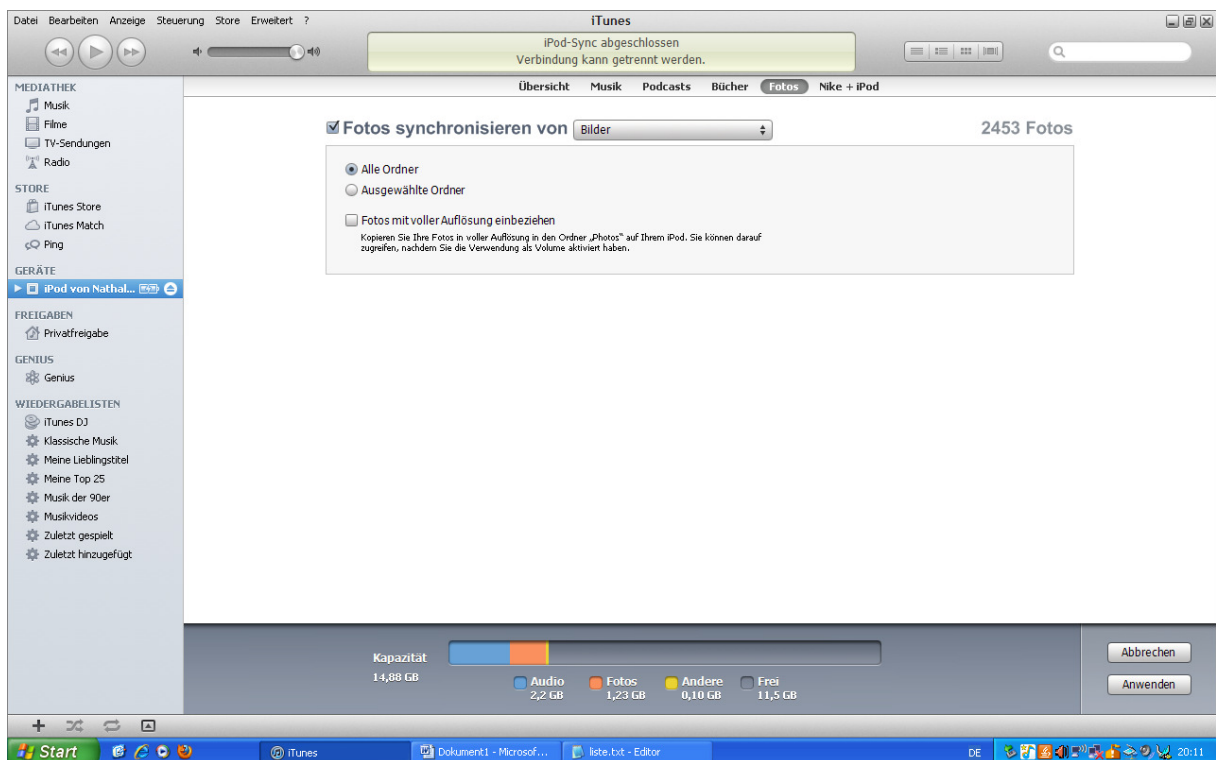

**2. Connect your device**

**3. Launch iTunes**

#### 4. In "devices" select your device (here: an iPod nano)

#### 5. Click „Photos”(on top) and select “synchronize photos from: images”

(Optional: Click on „selected folders“and select all folders you want to synchronize with your device – obviously, this selection must include the „Han Trainer Digital Flashcards“ folder)

**6. Click “apply” and wait** until the synchronization has been completed (this may take several minutes due to the large number of files)  
After synchronization has been completed, eject your device and disconnect the cable.

**7. You’ll now find the cards on your device (on an iPod nano: under “Photos”)**
